

Heidi Brepoels

Switches
partner

Heidi Brepoels started up Switches. She has run her own company since 2000 and deals with international clients such as AXA, Philips, Randstad, Sibelga... Before that she was into marketing in the newspapers world including at newspaper group Corelio. Guiding organizations and people towards new horizons is her passion. She realizes this through individual and team coaching, training and facilitation.

Heidi is a special mix between 'hard' and 'soft'. She might be confronting but stays involved with the people and organizations she's guiding. Smiling and friendly, she helps clients to find the key to unknown possibilities. This what drives her. It's a privilege to her to witness people prospering and growing. You can call her driven and stubborn, a bit mysterious sometimes.

Heidi is an accredited ACC coach. She's certified in MBTI (I and II) and Insights, metaprofile, she's an OPQ practitioner and makes use of methods from various currents (NLP, solution focused approach, provocative coaching...) both in training sessions, workshops and individual coaching. She completed her studies in communication sciences at Brussels University and then in political science at 'Institut d'études Politiques' in Bordeaux. She speaks fluent Dutch, French and English.
